

MJ Assist™

Muscle and Joint Formula

Product Description

DōTerra™ MJ Assist is a patent-pending blend of Certified Pure Therapeutic Grade™ essential oils formulated to provide fast-acting, temporary relief of muscle and joint discomfort.*

Concept

Whether from a long day on your hands and knees in the garden, a training run for your upcoming 10K race, or keeping pace with your teenagers on a weekend mountain hike, we all experience occasional muscle and joint discomfort associated with today's active lifestyles. As we age, our bodies don't seem to respond the same way they did when young, and we may experience muscle and joint discomfort more frequently.

Many of the over-the-counter and prescription pharmaceutical solutions for muscle and joint discomfort can be accompanied by negative side effects such as stomach discomfort resulting from the inhibition of the COX-1 enzyme which protects the stomach's lining. MJ Assist is an all-natural alternative for temporary relief of muscle and joint discomfort. MJ Assist's fast-acting formula is made with safe and gentle therapeutic-grade essential oils that support your body's response to physical activity with no harmful side effects.

Key Ingredients

MJ Assist is a patent-pending formula of Certified Pure Therapeutic Grade essential oils including Anise, Peppermint, Greek Sage, and Spanish Oregano.

Primary Benefits

- Provides fast-acting, temporary relief of muscle and joint discomfort*

What Makes This Product Unique?

- Patent-pending blend of Certified Pure Therapeutic Grade essential oils
- All-natural ingredients containing no artificial colors, preservatives, or flavors
- Safe and gentle with no harmful side effects

Who Should Use This Product?

MJ Assist can be used by any adult experiencing muscle or joint discomfort. MJ Assist can be used safely for occasional relief, or as ongoing support for more persistent discomfort.

Directions for Use

For temporary relief of muscle and joint discomfort, take 1 softgel with food every 6-8 hours as needed. Do not exceed 6 softgels in a 24-hour period.

Caution

Keep out of reach of children. If you are pregnant or lactating, or taking prescription medicine, consult a physician before using this product. Do not take on an empty stomach. Use only as directed.
